

Rinse Aid 202

Plastic & Other Surface Rinse Aid

202 is a liquid activating booster, depolarizer and wetting agent for use in all types of surface finishing systems. Significantly improves surface finishing. Acts as a detergent booster, rinse aide and static eliminator.

202 is particularly effective on plastic and polymer surfaces which can present difficulty in wetting and activating. Reduces surface tension & eliminates water spotting.

202 can be used in acid, alkaline or neutral process systems to boost and enhance performance of cleaning and rinsing in the process.

Features & Benefits

- Non-foaming over entire temperature range.
- No odors, biodegradable, non-phosphated.
- Highly cost effective. A small amount is effective.
- Provides immediate response to difficulties related to activating and surface wetting.
- Liquid, readily soluble in water.
- Can be automatically metered and fed into a system.

Physical Data

pH	9
Product Type	Liquid
Spec. Gravity	1.01
lbs./gal.	8.42
Foam, 0 = Low, 9 = High	N
Shelf-Life Years	10 years
Freeze Information	

Typical Processing

For rinse enhancement in plastic wash operations:

1. Add 0.02-0.03% by volume per approval specification.

** Licensee

2. For increased detergency and wetting:
3. Add 0.25% or as required.
4. For enhanced activating and wetting of surfaces:
5. Add 0.02-0.25% by volume to system.

Note: Always add to area of high agitation.

Packaging

Container Type	Poly
Net Units	463
Tare Wt.	25 lb.
Gross Wt.	463
DOT_Name	Not regulated by D.O.T. (Road Shipments) Not subject to IMDG code. (Ocean shipment)
DOT Hazard	Not regulated
Tarriff ID	

Use Parameters

Concentration Range	0.01-0.5%
Temperature Range	Unlimited
Time Range	As required.
Agitation	As available.

Waste Disposal

N/A.

Holding Tank Materials of Construction

Steel, stainless, or poly.

Other Information

It is important that the OSHA DATA, "Material Safety Data Sheet" be carefully read and reviewed with the users of this product. OSHA data is required to be posted in the work area by law.
